

PRODUCT INFORMATION

DAIWAX ZP₅₀

— Zinc Stearate —

* Specifications

Appearance	• • • • •	White granule
Moisture	• • • • •	Max. 0.5%
Metal Content	• • • • •	10.5±0.5%
Free Fatty Acid	• • • • •	Max. 0.5%
Melting Point	• • • • •	120~128°C
Specific Gravity	• • • • •	0.50±0.1 g/ml
5 mesh pass	• • • • •	Min. 95%
8 mesh pass	• • • • •	Min. 90%

* Uses

- Vinyl chloride stabilizer
- Mold releasing agent for phenol resin, urea resin, melamine resin, and polyester resin
- Anti-adhesive agent
- Various water repellent agents

* Characteristics

- Used when vulcanizing, and creates products with shiny and smooth surface.

* Packaging

20kg paper bag
