**Safety Data Sheet** 

First Edition: February 1st, 2000 Last Revised: June 30th, 2020

# [1. Chemical product and company identification]

Chemical substance name: Stearamide

**Product name:** Daiwax SA-200

Company name: Dainichi Chemical Industry Co., Ltd.

Address: 7-3-4, Nakaishikiri-cho, Higashiosaka-shi, Osaka-fu,

579-8014, Japan

Associated department:

Technical department
+81-72-985-1851
Emergency contact number:
+81-72-985-1851
+81-72-985-1851
-81-72-987-0170
Recommended use:
Additives for resin

Lubricants for powder metallurgy

## [2. Hazards identification]

#### 1. GHS classification

a. Physical hazards

Flammable solids:

Pyrophoric solids:

Classification not possible
Classification not possible
Classification not possible
Classification not possible

Substances and mixture which, in

contact with water, emit flammable Classification not possible

gases:

Corrosive to metals: Classification not possible

b. Health hazards

Acute toxicity (oral): Classification not possible Acute toxicity (dermal): Classification not possible

Acute toxicity (gases): Not classified

Acute toxicity (vapors): Classification not possible Acute toxicity (dusts and mists): Classification not possible Skin corrosion/irritation: Classification not possible Serious eye damage / eye irritation: Classification not possible **Respiratory sensitization:** Classification not possible Skin sensitization: Classification not possible Germ cell mutagenicity: Classification not possible Carcinogenicity: Classification not possible Reproductive toxicity: Classification not possible STOT-single exposure: Classification not possible **STOT-repeated exposure:** Classification not possible **Aspiration hazard:** Classification not possible

# **Safety Data Sheet**

First Edition: February 1st, 2000 Last Revised: June 30th, 2020

c. Environmental hazards

Acute aquatic hazard:Classification not possibleChronic aquatic hazard:Classification not possibleHazardous to the ozone layer:Classification not possible

#### 2. Label elements

Signal words:Not availableHazard pictogram:Not availableHazard statementNot availablePrecautionary statementNot available

## [3. Composition/Information on ingredients]

Substance/Mixture:SubstanceChemical substance name:StearamideSynonym:Octadecanamide

 CAS number:
 124-26-5

 ENCS number:
 (2)-824

 EINECS number:
 204-693-2

 KECL number:
 KE-26324

## [4. First-aid measures]

IN EACH CASES OF FOLLOWING EMERGENCIES, VICTIMS SHOULD BE TREATED BY PARTICULAR FIRST-AID MEASURES AS FOLLOW

**In eyes:** Flush eyes with plenty of water for at least 15 minutes. Then

get immediate medical advice.

On skin: Wash skin with soap and water for at least 15 minutes while

removing contaminated clothing and shoes. Get medical advice, if needed. Thoroughly clean and dry contaminated

clothing and shoes before reuse.

**Inhalation:** If adverse effects occur, remove to uncontaminated area.

Give artificial respiration if not breathing. If breathing is difficult, oxygen should be administered by qualified

personnel. Get immediate medical advice.

**Ingestion:** If large amount is swallowed, get medical advice.

## [5. Fire-fighting measures]

Suitable Extinguishing media: Water spray, foam-extinguisher, powder-extinguisher and

dry chemical

**Inappropriate extinguishing media:** Straight stream water

Flammable properties: Dust/air mixtures may ignite or explode.

# **Safety Data Sheet**

First Edition: February 1st, 2000 Last Revised: June 30th, 2020

**Special protective actions for fire-fighters:** Take away a product container from a fire if possible.

Keep containers cool with a plenty of water after fire

extinction.

Fire-fighters should wear an appropriate respiratory apparatus and protective clothes for chemical.

[6. Accidental release measures]

**Personal precautions:** Use proper protective equipment as indicated in Section 8.

Avoid direct contact with the spilled or leaked material. Avoid inhaling this product in the air (Powder dust).

Methods and materials for containment and cleaning

up

Rake spills with a broom and collect it in appropriate

container.

Store the container in a cool and dry place until it disposes.

Ventilate the area where this product was released.

**Environmental precautions:** Avoid flowing out to the rivers, household drains and other

environment.

[7. Handling and storage]

**Handling:** Avoid contact with eyes, skin and clothes.

Wash hands carefully after handling this product. Prohibit open flames while handling this product.

Avoid deposition of this product.

Use dust explosion-proof electrical equipment and light

fixtures.

Do not eat, drink or smoke while handling this product.

**Storage:** Store this product in well-ventilated, dry and cool place.

Please make sure that the storage is not close to open flames,

sparks and heat.

Please make sure that the container of this product is tightly

closed and antistatic when store this product.

[8. Exposure controls/Personal protection]

**Component Exposure Limit** 

**Engineering controls:** 

ACGIH, NIOSH, EU, OSHA (US) and other organizations have not developed exposure limits for any of this

product's components.

Eye washer and safety shower should be placed in storages

where this product is stored and in buildings where this

product is handled.

**Ventilation:** Provide local exhaust ventilation system. Ventilation

equipment should be explosion-resistant if explosive concentrations of material are present. Ensure compliance

with applicable exposure limits.

Safety Data Sheet

First Edition: February 1st, 2000 Last Revised: June 30th, 2020

Personal protective equipment

Hands: Wear appropriate protective gloves. **Eves:** Wear appropriate safety glasses. Skin and Body: Wear appropriate protective clothes.

Wear air-purifying respirator with a tight-fitting facepiece Respiratory:

and a high-efficiency particular filter.

## [9. Physical and chemical properties ]

Appearance: White solid (powder) Odor: No data available **Odor threshold:** No data available No data available pH:

**Melting point and freezing point:** 98 - 103°C

Initial boiling point and boiling range: No data available Flash point (Open cup): >225°C (>437°F) **Evaporation rate (Butyl acetate =1):** No data available Flammability (solids, gas): No data available **Lower Explosive limits:** No data available **Upper Explosive limits:** No data available Vapor pressure: Not applicable Vapor density (Air =1): Not applicable Specific gravity or density: No data available

Insoluble in water. Soluble in hot propanol. **Solubility:** 

Partition coefficient: n-octanol/water: No data available **Auto-ignition temperature:** No data available **Decomposition temperature:** No data available Viscosity: No data available

### [10. Stability and reactivity]

Reactivity: Not in particular.

Chemical stability: Stable in general condition.

Conditions to avoid: Avoid heat, flames, sparks and other sources of ignition.

If dry, it can be charged electrostatically by swirling,

pneumatic transport, pouring, etc.

**Incompatible materials:** Not in particular

**Hazardous decomposition product:** Oxides of carbon and nitrogen

No data available Possibility of hazardous reactions:

**Safety Data Sheet** 

First Edition: February 1st, 2000 Last Revised: June 30th, 2020

## [11. Toxicological information]

**Acute toxicity (Oral):** No data available **Acute toxicity (Dermal):** No data available Not classified **Acute toxicity (Gases):** No data available Acute toxicity (Vapors): Acute toxicity (Dusts and mists): No data available Skin corrosion/irritation: No data available Serious eye damage / Eye irritation: No data available Respiratory sensitization: No data available Skin sensitization: No data available Germ cell mutagenicity: No data available Carcinogenicity: No data available

Reproductive toxicity:No data availableSTOT-single exposure:No data availableSTOT-repeated exposure:No data availableAspiration hazard:No data availableComponent analysis - LD50/LC50:No data available

## [12. Ecological information]

#### **Ecotoxicity**

Aquatic ecotoxicity:
Terrestrial ecotoxicity:
No data available
Persistence and degradability:
No data available
Bioaccumulative potential:
No data available
Mobility in soil:
No data available
Hazardous to the ozone layer:
No data available

# **Safety Data Sheet**

First Edition: February 1st, 2000 Last Revised: June 30th, 2020

## [13. Disposal considerations]

Do NOT dump this product in the environment or in the household waste. Before disposal or incineration, contents of this product should be neutralized or stabilized if it's possible.

Obey local/regional/national/international regulations about the disposal or the incineration of this product (both contents and containers).

# [14. Transport information]

UN number: Not Applicable on UN classification

**HS code:** 2924.19

US DOT:

No classification assigned
TDG:

No classification assigned
ADR:

No classification assigned
RID:

No classification assigned
IATA:

No classification assigned
ICAO:

No classification assigned
IMDG:

No classification assigned

Marine pollutant: Not applicable

**Particular safety measures for transportation:** Avoid damage to the container while loading this product.

Do not put heavy objects on top of this product. Load carefully to prevent the collapse of cargo. Avoid direct sunlight to this product during transport.

## [15. Regulatory information]

### **Inventory information**

Inventory Name	Stearamide	
	Status	Registry Number

#### Manufacture disclaimer

All information given in this SDS is based on the data which is considered to be accurate, but the information do not guarantee enough safety. All chemical material may have an unknown hazard to human and conditions of methods of handling, storage, use and disposal of the product are beyond suppliers' control; therefore all risks and consequences of use the product are on users' responsibilities and users need to set appropriate safety measures for special use.

In addition, all classification in this SDS was written in accordance with the GHS classification of the fifth revised edition. However, GHS mentioned that countries are free to determine which of the building blocks will be applied in different parts of label elements and building blocks. Therefore, many countries set own requirements of label elements and building blocks. In the cases of export from Japan or use in other countries, SDSs and labels are needed, which are in accordance with the local laws and regulations of exporting countries or user countries. Please contact supplier beforehand for checking SDSs and labels are suitable for the local laws and regulations.
