

Safety Data Sheet

c. Environmental hazards

Acute aquatic hazard:	Classification not possible
Chronic aquatic hazard:	Classification not possible
Hazardous to the ozone layer:	Classification not possible

2. Label elements

Signal words:	Not available
Hazard pictogram:	Not available
Hazard statement	Not available
Precautionary statement	Not available

【3. Composition/Information on ingredients】

Substance/Mixture:	Substance
Chemical substance name:	Erucamide
Synonym:	(Z)-Docos-13-enamide 13-Docosenamide, (Z)-
CAS number:	112-84-5
ENCS number:	(2)-981, (2)-824
EINECS number:	204-009-2
KECL number:	KE-12791

【4. First-aid measures】

IN EACH CASES OF FOLLOWING EMERGENCIES, VICTIMS SHOULD BE TREATED BY PARTICULAR FIRST-AID MEASURES AS FOLLOWS

In eyes:	Flush eyes with plenty of water for at least 15 minutes. Then get immediate medical advice.
On skin:	Wash skin with soap and water for at least 15 minutes while removing contaminated clothing and shoes. Get medical advice, if needed. Thoroughly clean and dry contaminated clothing and shoes before reuse.
Inhalation:	If adverse effects occur, remove to uncontaminated area. Give artificial respiration if not breathing. If breathing is difficult, oxygen should be administered by qualified personnel. Get immediate medical advice.
Ingestion:	If large amount is swallowed, get medical advice.

【5. Fire-fighting measures】

Suitable Extinguishing media:	Foam-extinguisher, powder-extinguisher or dry chemical
Inappropriate extinguishing media:	Straight stream water
Flammable properties:	Hazardous fume containing COX and NOX might be formed during combustion.
Special protective actions for fire-fighters:	Take away a product container from a fire if possible. Keep containers cool with a plenty of water after fire extinction. Fire-fighters should wear an appropriate respiratory apparatus and protective clothes for chemical.

Safety Data Sheet

【6. Accidental release measures 】

Personal precautions:

Use proper protective equipment as indicated in Section 8.
Avoid direct contact with the spilled or leaked material.
Avoid inhaling this product in the air (Powder dust).

Methods and materials for containment and cleaning up:

Rake spills with a broom and collect it in appropriate container.
Store the container in a cool and dry place until it disposes.
Ventilate the area where this product was released.

Environmental precautions:

Avoid flowing out to the rivers, household drains and other environment.

【7. Handling and storage 】

Handling:

Avoid contact with eyes, skin and clothes.
Avoid inhaling this product in the air (Powder dust).
Wash hands carefully after handling this product.
Prohibit open flames while handling this product.
Avoid deposition of this product.
Use dust explosion-proof electrical equipment and light fixtures.
Avoid diffusion of this product to the air.
Do not eat, drink or smoke while handling this product.

Storage:

Store this product in well-ventilated, dry and cool place.
Please make sure that the storage is not close to open flames, sparks and heat.
Please make sure that the container of this product is tightly closed and antistatic when store this product.

【8. Exposure controls/Personal protection 】

Component Exposure Limit

ACGIH, NIOSH, EU, OSHA (US) and other organizations have not developed exposure limits for any of this product's components.

Engineering controls:

Eye washer and safety shower should be placed in storages where this product is stored and in buildings where this product is handled.

Safety Data Sheet

Ventilation:

Provide local exhaust ventilation system. Ventilation equipment should be explosion-resistant if explosive concentrations of material are present. Ensure compliance with applicable exposure limits.

Personal protective equipment

Hands:

Wear appropriate protective gloves.

Eyes:

Wear appropriate safety glasses.

Skin and Body:

Wear appropriate protective clothes.

Respiratory:

Wear air-purifying respirator with a tight-fitting facepiece and a high-efficiency particular filter.

【9. Physical and chemical properties 】

Appearance:

Off-white solid (powder)

Odor:

Slightly distinct odor

Odor threshold:

No data available

pH:

No data available

Melting point and freezing point:

74- 90°C

Initial boiling point and boiling range:

No data available

Flash point (Open cup):

No data available

Evaporation rate (Butyl acetate =1):

No data available

Flammability (solids, gas):

Not applicable

Explosive limits:

No data available

Vapor pressure:

No data available

Vapor density (Air =1):

No data available

Specific gravity or density:

No data available

Solubility:

0.2 mg/L at 25°C

Partition coefficient: n-octanol/water:

No data available

Auto-ignition temperature:

No data available

Decomposition temperature:

No data available

Viscosity:

No data available

【10. Stability and reactivity 】

Reactivity:

Nothing in particular.

Chemical stability:

Stable in general condition.

Conditions to avoid:

Avoid heat, flames, sparks and other sources of ignition. If dry, it can be charged electrostatically by swirling, pneumatic transport, pouring, etc.

Incompatible materials:

Nothing in particular.

Hazardous decomposition product:

Oxides of carbon and nitrogen

Possibility of hazardous reactions:

Nothing in particular

【11. Toxicological information】

Acute toxicity (Oral):	Based on IUCLID (2000), Oral Rat LD50 is larger than 25,000mg/kg, therefore classified as "Not classified".
Acute toxicity (Dermal):	No data available
Acute toxicity (Gases):	Not classified
Acute toxicity (Vapors):	No data available
Acute toxicity (Dusts and mists):	No data available
Skin corrosion/irritation:	No data available
Serious eye damage / Eye irritation:	No data available
Respiratory sensitization:	No data available
Skin sensitization:	No data available
Germ cell mutagenicity:	No data available
Carcinogenicity:	No data available
Reproductive toxicity:	No data available
STOT-single exposure:	No data available
STOT-repeated exposure:	No data available
Aspiration hazard:	No data available
Component analysis - LD50/LC50:	Oral LD50 Rat > 5000mg/kg

【12. Ecological information】

Ecotoxicity	
Aquatic ecotoxicity:	No data available
Terrestrial ecotoxicity:	No data available
Persistence and degradability:	No data available
Bioaccumulative potential:	No data available
Mobility in soil:	No data available

【13. Disposal considerations】

Do NOT dump this product in the environment or in the household waste. Before disposal or incineration, contents of this product should be neutralized or stabilized if it's possible.
Obey local/regional/national/international regulations about the disposal or the incineration of this product (both contents and containers).

【14. Transport information】

UN number:	Not Applicable on UN classification
US DOT:	No classification assigned
TDG:	No classification assigned
ADR:	No classification assigned
RID:	No classification assigned
IATA:	No classification assigned
ICAO:	No classification assigned
IMDG:	No classification assigned
Marine pollutant:	Not applicable
Particular safety measures for transportation:	Avoid damage to the container while loading this product. Do not put heavy objects on top of this product. Load carefully to prevent the collapse of cargo. Avoid direct sunlight to this product during transport.

Safety Data Sheet

【15. Regulatory information】

Inventory information

Inventory Name	Erucamide	
	Status	Registry Number
AICS (Australia):	Present	—
DSL (Canada):	Present	—
IECSC (China):	Present	10938
EINECS (EU):	Present	204-009-2
ENCS (Japan):	Present	(2)-981, (2)-824
KECL (Korea):	Present	KE-12791
INSQ (Mexico):	Present	—
NZIoC (New Zealand):	Present	—
PICCS (Philippines):	Present	—
HPV Chemicals (Turkey):	Unlisted	—
Inventory (Turkey):	Present	EC No. 204-009-2
TSCA (U.S.A.):	Present	—

Manufacture disclaimer

All information given in this SDS is based on the data which is considered to be accurate, but the information do not guarantee enough safety. All chemical material may have an unknown hazard to human and conditions of methods of handling, storage, use and disposal of the product are beyond suppliers' control; therefore all risks and consequences of use the product are on users' responsibilities and users need to set appropriate safety measures for special use.

In addition, all classification in this SDS was written in accordance with the GHS classification of the fifth revised edition. However, GHS mentioned that countries are free to determine which of the building blocks will be applied in different parts of label elements and building blocks. Therefore, many countries set own requirements of label elements and building blocks. In the cases of export from Japan or use in other countries, SDSs and labels are needed, which are in accordance with the local laws and regulations of exporting countries or user countries. Please contact supplier beforehand for checking SDSs and labels are suitable for the local laws and regulations.
